Except contrary indications, pages of this catalogue are presented as below :

- left page : modular instruments
- right page : complete non modular instrument

In the majority of cases, modular instruments are linked to complete instruments. If we don't have any correspondence, you will have an «X» on the line.

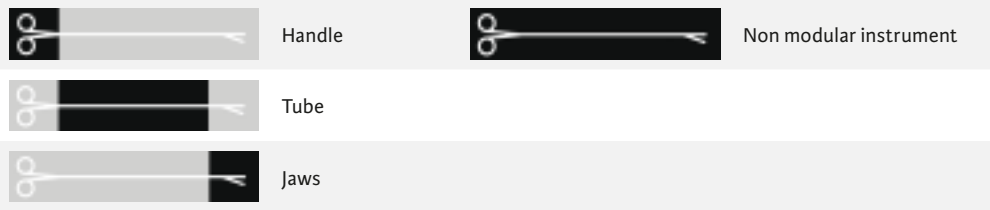

Example : CEV8625CU doesn't have complete version.

In the modular inserts table, handles to be used are precised with specific pages. Tubing compatible with handles are mentioned on pages close to handles' pages.

Please refer to modular instruments composition on following page.

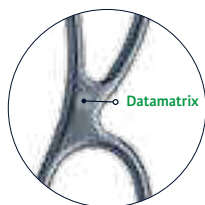

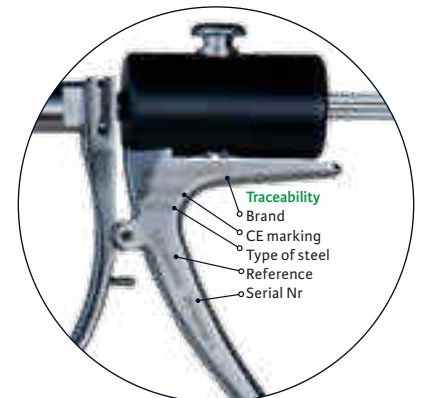

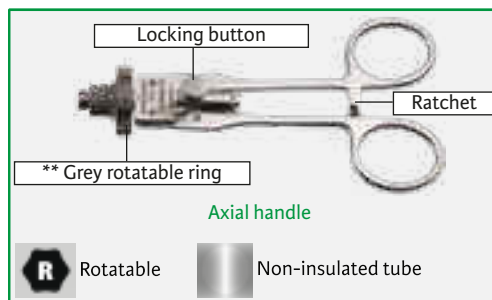

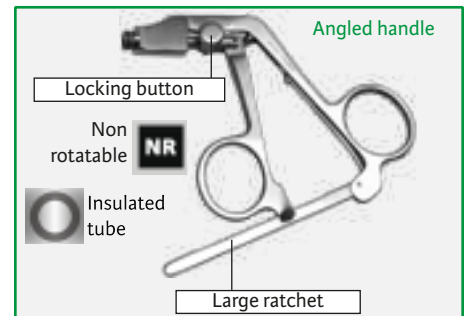

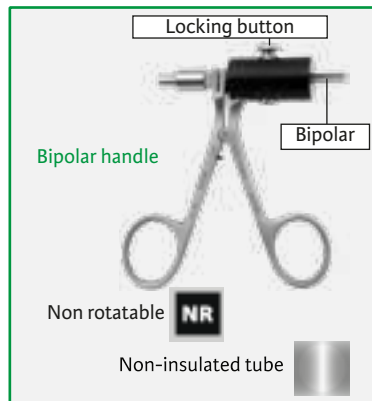

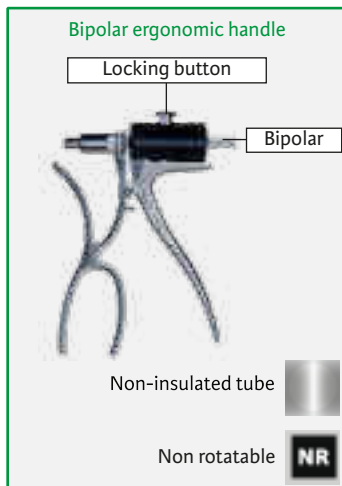

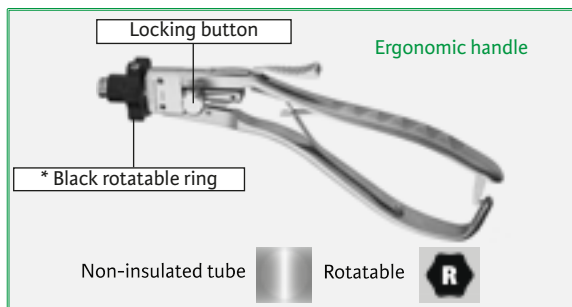

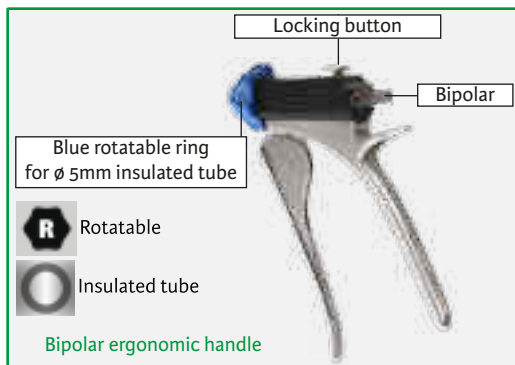

MicroFrance® laparoscopic dismantled instruments are composed of three pieces : Jaws, tube and handle..

The black portion of the left tab indicates the section featured in the current page :

In the majority of cases, modular instruments are linked to complete instruments
